

#48 Natural Art Fun to Try at Home

Support your child's imaginative and creative development

Collect leaves, twigs, grass, fir cones, conkers, pebbles, shells to make pictures and patterns together

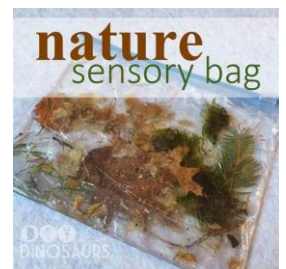

Your child will love exploring with you. Talk to your child about what they can see and hear around them helps develop their speech, language and communication skills.

Try using wax crayons and paper to explore the natural patterns of leaves, trees, pavements, and other things you find together outdoors

You can change how you do activities depending on your child's likes and dislikes or adding something they love to play with e.g. dinosaurs, little figures, animals, insects

To try other activities and have fun together you can visit the website [50 Things to Do Before You're Five in Cambridgeshire & Peterborough](https://www.50thingsbeforeyoure5.co.uk/) or scan the QR Code to download the app
