# Ready to START SCHOOL

Help your child to be  
 ...ready for school  
 ...ready to learn  
 ...ready to succeed

There are lots of things you can do to get your child ready for school. When your child starts school it will help to be able to do the following:

In Peterborough we have worked together to help every parent and carer to get their child ready to START school.

To do well in school children need to practise using pencils, paintbrushes, knives and forks; to listen and share and to say what they need.

This leaflet will give you tips so that you can make sure your child is ready for school.

Do not worry if your child cannot do these things by the time they start school: just keep practising together. If you need help use the contacts overleaf.

If your child is ready to start school it is likely that they will do well in their whole education and get a job they enjoy.

You are your child's first teacher: trying the tips in this leaflet will really help your child to like learning, feel good about themselves and be happy to start school.
